Patient Monitor Mounting Solutions

Amico

About Us

Amico has been an industry leader in the medical equipment-manufacturing sector since 1974. We've worked hard for our reputation as an innovator in the medical industry, and Amico Accessories Inc. has created a line of Healthcare Mounting Solutions that suit the needs of healthcare providers. Meeting and exceeding standards set by FDA, ISO, OSHPD, UL 60601 and VESA, Amico is the only mounting solutions provider that can offer the peace of mind that comes with knowing the product you receive meets the highest of standards. Amico Accessories Inc. strives to provide caregivers with reliable and attractive workflow solutions. Our products are compatible with every major manufacturer so they work the way you expect them to with no headaches.

Clinical Engineering

Merging lifesaving equipment with your hospital's communications backbone leads to a safer environment for your patients. With Amico, you can take comfort knowing that every product we design, build and sell is constructed to stand up to the demands of the healthcare industry. Our solutions are backed by an industry leading, all-inclusive warranty. With upgrade-friendly solutions, we can adapt to your constantly changing technological needs. In addition, as a single point of contact for all medical device mounting, we make it easy to find a solution that works for your specific needs.

IT

Implementing EMR can cause headaches in terms of both budget and time. We do everything we can to take the complexity out of the process by bringing you solutions that work. Our products ship fully assembled, with no complicated instructions to worry about. We design all of our products to be "plug and play." They install in seconds so no time or money is wasted getting them up and running. You can rest easy knowing that our cable management and solutions for any hardware (tablets, PCs, laptops and all-in-ones) will fit seamlessly into your implementation.

Nursing

We understand that as a healthcare professional your main concern is your patient. The tools you use are crucial when caring for your patient, but they shouldn't dominate your workspace and get in the way of human interaction. Our ergonomically friendly mounting solutions are designed to enhance your workflow and help you take control of your workspace, allowing for more contact with your patients. Amico products feature easy-to-clean, anti-microbial surfaces that help reduce the spread of infection from patient to patient.

Compatible Mounting Solutions

Available For...

Advantech	Larsen & Toubro
