Mounting Solutions

About Us

Amico Corporation has been an industry leader in the medical equipment manufacturing sector since 1974. We've worked hard for our reputation as an innovator in the medical industry, creating a line of Healthcare Mounting Solutions that suit the needs of healthcare providers. Meeting and exceeding standards set by FDA, ISO, OSHPD, UL 60601 and VESA, Amico is the only mounting solutions provider that can offer the peace of mind that comes with knowing the product you receive meets the highest of standards. Through our Accessories division, we strive to provide caregivers with reliable and attractive workflow solutions. Our products are compatible with every major manufacturer so they work the way you expect them to with no headaches.

Nursing

We understand that as a healthcare professional your main concern is your patient. The tools you use are crucial when caring for your patient, but they shouldn't dominate your workspace and get in the way of human interaction. Our ergonomically friendly mounting solutions are designed to enhance your workflow and help you take control of your workspace, allowing for more contact with your patients. Amico products feature easy-to-clean, anti-microbial surfaces that help reduce the spread of infection from patient to patient.

IT

Implementing EMR can cause headaches in terms of both budget and time. We do everything we can to take the complexity out of the process by bringing you solutions that just work. Our products ship fully assembled, with no complicated instructions to worry about. We design all of our products to be "plug and play." They install in seconds, so no time or money is wasted getting them up and running. You can rest easy knowing that our cable management and solutions for any hardware (tablets, PCs, laptops and all-in-ones) will fit seamlessly into your implementation.

Clinical Engineering

Merging lifesaving equipment with your hospital's communications backbone leads to a safer environment for your patients. With Amico, you can take comfort in knowing that every product we design, build and sell is constructed to stand up to the demands of the healthcare industry. Our solutions are backed by an industry leading, all-inclusive warranty. With upgrade-friendly solutions, we can adapt to your constantly changing technological needs. In addition, as a single point of contact for all medical device mounting, we make it easy to find a solution that works for your specific needs.

Falcon™

LCD and Keyboard Mount

From the ER to the OR, the Falcon is built to make your job easier. The dual height adjustment and the swivelling keyboard tray allow you to configure the position of the keyboard and monitor in seconds. An Easy Grab handle and a no-nonsense arm lock let you move and lock your system with ease. When you need quick access to barcode scanners and mice, integrated holsters have them at your fingertips.

Easy Grab Handle

Intelligent Cable Management

8" (20.3 cm) Folded Depth

FEATURES

OPTIONS

Your intuitive use was our main concern when we designed the Falcon, but it wasn't our only one. That's why we incorporated a streamlined cable management system and a negative tilt adjustment knob, promoting proper ergonomics so you can work comfortably and safely. Medical grade surfaces are easy to clean for better infection control and, with a folded depth of 8" (20.3 cm) from the wall, the Falcon stays out of the way when you are performing other tasks.

Independent LCD
Height Adjustment

Multiple Pivot
Points

Sit to Stand
Applications

With SideKick Secondary Surface

Condor™

Adjustable Height Channel

Tight on space? That doesn't mean you need to sacrifice comfort while you chart. Perfect for hallways, patient rooms and areas with very limited space; the Condor is uniquely designed to stay tucked away while offering you all of the ergonomic features you need to work happy. Because we're all built differently, the Condor is also constructed to be adjustable for all sizes. Adjust the height of the keyboard and screen together or individually tilt the keyboard, adjust the screen and personalize your setup in seconds.

Provides Sit to Stand Capabilities

Folds Compact Against Wall

Ideal for Areas with Limited Space

FEATURES

OPTIONS

Our unique cable management system conceals your clutter, while matching color options create the aesthetic look you need. A patented counter-balance mechanism and our slide in accessories allow technology to change while maintaining your room mounting solutions. Easy to move, easy to clean, easy to fold ... a point of care workstation made for you.

Handle and Storage Options

Optional Arm Lengths

Compact Folding

With SideKick Secondary Surface

Sidekick™

Keyboard Dual Surface

Every superhero needs a Sidekick. Our unique secondary work surface is designed to assist you with your daily rounds. The Sidekick's LED charting light will brighten up your dimly lit space and make documentation easier. A unique RFID enabled upgrade eliminates the needs for extra readers on the work surface and turns your Sidekick into an authentication station.

Available for Falcon
and Condor

Magnetic Whiteboard

Night Time Charting Light

RFID Upgrade

Raven™

LCD and Keyboard Mount

As a healthcare professional, you're focused on providing the best care for your patients. But when wall space is limited, you shouldn't have to sacrifice ergonomics and comfort to deliver that care. The Raven offers you uncompromised functionality by allowing you to mount your LCD and keyboard above your work area; ready to be pulled down in an instant when you need it. You can even rotate the monitor between landscape and portrait mode and tilt it effortlessly for the optimum viewing angle. The Raven also stands up to frequent use of sterilizers and disinfectants.

Compact Folding

Hassle Free Integration to Most Existing Rail Systems

18" Height Adjustment

FEATURES

OPTIONS

Hawk™

Laptop Mount

Some caregivers prefer the flexibility and mobility of a laptop but don't want to give up the full desktop experience. That's where the Hawk swoops in. With a secondary keyboard tray, an integrated mouse tray and a design that keeps cords and cables out of the way, you get the best of both worlds. Go from reviewing data on a new arrival at your workstation, to sharing health results with a new mom across the room. When you're not around, your laptop stays secure with lockable security bars.

Access to All Ports

Additional Work Surface

Retractable Keyboard Tray

FEATURES

OPTIONS

Pigeon™

Custom Built Cabinet

Get the functionality of a desk without losing any floor space with the Pigeon, a fold down cabinet solution that mounts directly onto the wall. Available in profiles that stick out 1-1/2" (3.8 cm) from the wall, the Pigeon will remain an inconspicuous part of a patient's room, thanks to a design that blends in anywhere.

Albatross™

Cabinet

The Albatross is a good looking solution that allows patients to focus on getting better in warm surroundings without hospital technology staring back at them. It easily houses a tablet, laptop, all-in-one PC, desktop and even medical supplies. Multiple extension options are also available for you to maneuver the unit any way you need.

OPTIONS

FEATURES

Heron™

Custom Tablet Mounting Solutions

It's no secret that tablet computers offer healthcare professionals on-the-go convenience but, at times, there isn't always a safe place to set down the high-tech devices. With the Heron, you never have to worry about finding a place to store your tablet while you work, or be concerned about dropping the expensive unit on the floor while attending to patient needs.

External Keyboard and
Mouse Surface

Un-Dock-Lock

Provides Charging
for Tablet

FEATURES

OPTIONS

Simply snap the tablet into the dock and let it charge while you work. You can also use the tablet while docked thanks to a secondary keyboard that turns your tablet into a miniature workstation. For a more desktop-like experience, the Heron's dual mount solution allows you to enjoy the clarity of an LCD screen without losing any of the tablet's features and functionality.

iPad Mount

iPad on Overbed Table

Pan, Tilt and Swivel Capabilities

Eagle™

Multi Screen Mount

Your patients deserve all the attention they can get. The Eagle delivers by allowing you to display patient data on multiple screens. That means you can monitor vital signs on one LCD while charting on the other, never having to switch between applications and lose focus. Information is always visible when you need it and, thanks to multiple pivot points, you can move and tilt your monitors for easy viewing.

FEATURES

OPTIONS

Light-duty Monitor Arm

Desktop Monitor Mount

The Light-duty Monitor Arm is an optimal solution for mounting LCD screens where occasional adjustments are needed. Screens can be mounted in your choice of landscape or portrait orientation. Multiple mounting options are available for these light duty, height-adjustable arms including rail mount, channel mount and two desktop mounting options: clamp style or grommet mounted.

LCD Monitor on Wall

Direct Headwall Mount

Desk Top Mount
(Clamp Style)

Direct Mounts

Horizontal Headwalls 

If your patient care facilities have been designed with a little too much clutter, our direct mounting solutions offer fast and easy relief. Mounting your equipment on the existing headwall rails will save you time and money on installation and you won't need to add any additional unsightly wall tracks.

Conceal Cables

View From Anywhere
in the Room

Install in Seconds

FEATURES

OPTIONS

Direct Mounts

Vertical Headwalls

Our direct mounting solutions allow you to position the equipment virtually anywhere on the headwall, giving you the freedom to chart at the bedside without taking up any additional floor space. All of our direct mounting solutions take advantage of existing power and data outlets and securely fasten to your pre-existing, reinforced headwalls.

Mount to Any Existing Unit

Ergonomic Height Adjustment

Pivots Easily From Side to Side

OPTIONS

FEATURES

Direct Mounts

Anesthesia Machines

In the OR, with multiple doctors and nurses negotiating tight spaces, there is not always a lot of extra room. By mounting your charting system directly to your anesthesia delivery station, you can make the most of situations where moving around isn't really an option. A variety of extension options give you access to supplementary equipment without forcing you to leave your workspace.

No Assembly Required

Additional Extension Arms Available

Single Hand Adjustment

FEATURES

OPTIONS

Direct Mounts

Equipment Booms

Don't walk around the room to reach your equipment. Instead, bring your equipment to you. Position and reposition your working environment to get it exactly the way you want it. This original solution allows you to use the space on your boom consoles more efficiently without sacrificing access to critical services. In simplifying the required hardware you'll have less to clean, helping you control the spread of infection.

Accessory Mounts

At times hospital life can seem hectic, but it doesn't have to be that way. Feel a little less frenzied by centralizing all of your patient care essentials onto a workstation. You can mount a vital signs monitor directly onto the unit, attach baskets, barcode scanners and add label printers to enhance your mobile applications.

Mounts to Any Workstation

FEATURES

OPTIONS

Mounting Channels

Counter

Ceiling

Wall

Just because space is limited, it doesn't mean your access to crucial patient information has to be. Mount charting stations, laptops, screens and more onto unused desk, counter, wall or ceiling space. In fact, you can double your efficiency thanks to an innovative design that allows you to utilize both sides. Plus, with integrated cable management and décor-matching colors, your charting stations will fit right in wherever you choose to put them.

OPTIONS

FEATURES

Custom Solutions

At Amico, we understand that every hospital is different. We don't believe in one-size-fits-all solutions. That's why we design and build so many different mounting products. If we don't have a solution that works for you, we'll create it. Our experienced design and engineering teams have a strong track record of creating innovative solutions from scratch. Our team will work with you to deliver a product that functions perfectly, is delivered on time and meets the highest standards set by FDA, ISO, OSHPD, VESA and UL. That's peace of mind from start to finish, no matter what your needs are.
