COMPUTING WORKSTATIONS AND POINT-OF-CARE PRODUCTS

CAPSAHEALTHCARE

Medication Carts Mobile Computing Wall Arms Elevating performance, **every day.**

Through inventive product design and commitment to customer support, Capsa Healthcare has been a market leader for over 50 years.

Our job is to help you do yours. **Capsa Healthcare** is built upon a 50-year foundation of experience and innovation designed to improve the organization, efficiency, and accuracy of healthcare providers. We strive to elevate your performance by offering innovative solutions that positively impact clinical effectiveness in healthcare environments. We understand the delivery of healthcare cannot wait, which is why we continually invest in product development, technology innovation, service, and support to make sure we are the logical choice for products that elevate the performance of healthcare delivery at the point-of-care.

Capsa Healthcare provides an extensive portfolio of mobile computer carts, point-of-care wall mount products, and service programs designed to optimize your health IT program. With extended cart runtime and simple serviceability, Capsa's mobility solutions improve user experience and support better clinical workflow.

Features

Saves Time

Reduce time wasting activities and increase time spent with patients.

Communication Tools

Using on-board messaging software, sending service requests and receiving notifications is easier than ever

Save personalized heights, through a system

Battery Runtime lcon

Easy-to-read battery status icon indicates the amount of runtime remaining

Electronic Lift

preferences, such as seated and standing fleet-wide memory

Flexible to Meet Changing Needs

Future-proof design provides a universal power system and ability to easily upgrade to medication administration without purchasing a new cart

Easier to Move

Improved maneuverability and ergonomics assist with workflow and decrease patient disruptions.

N-Stride[™] Steering Control

By locking a front caster, users can easily navigate halls and turn corners without unnecessary strain

Additional Lighting Options

Three lighting options assist with navigating and working in darkened areas without disrupting patients

Dual-Position Handles and 5" Casters

Ergonomically designed handles provide additional user comfort, while larger casters help cross thresholds and maneuver over carpet

Height-Adjustable **Rotating Monitor**

Easy-to-move adjustable monitor helps ensure proper ergonomics to both prevent injury and promote sharing of information with patients

IN-Sight[™]

Fleet Management

N-Sight is a cloud-based system that enables hospital IT to remotely manage and monitor point-of-care carts used by clinicians. N-Sight facilitates improved asset utilization, maximizes fleet performance and value, and helps identify and prevent issues before they impact clinicians.

N-Sight Cloud Based Platform

The N-Sight Difference

- **Robust Cloud Solution:** N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.
- **Asset Utilization:** Provides different analytic points to evaluate asset utilization and manage fleet deployment to ensure the right number of carts are in the right locations.
- User Administration: Enables remote management of cart user groups, user logins, PIN codes, and security settings for strict control over access.
- **Configuration Settings:** Centralized management of CareLink Cart configurations for Displays & Alerts, PIN's, Notifications and Service Requests.
- **NEW.** Add N-Sight's remote fleet management to your M38e carts to optimize fleet deployment and maximize cart uptime. Contact your Capsa Regional Sales Manager for more details.

IN-Sight[™]

Asset Utilization

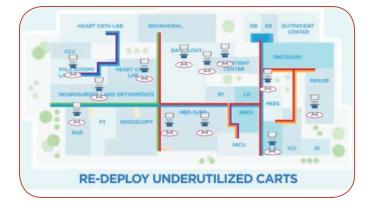

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts.

Right-Size Your Fleet

- Evaluate utilization patterns and peak needs through Access Monitoring to determine if the number of carts in a unit or facility meet current clinical demands
- Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization
- Cart fleet utilization reports can be exported for further review and distribution across your service and support teams

Proactive Monitoring

- Maintain cart availability while proactively monitoring cart fleet power levels and performance throughout the facility or network of facilities
- Power Analytics provides visibility into power usage and allows adjustments to technology settings to extend cart runtimes

Training and Education

• Monitor fleet or individual cart charging activity and history to identify potential training and education opportunities to improve runtime and cart availability

Remote Fleet Management

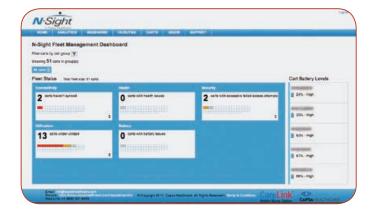

N-Sight saves IT time with managing their cart fleet and the administration of their users.

Intuitive Dashboard

- Illustrates current battery levels sorted from lowest to highest and summarizes fleet performance over the past 24 hours...no more "making rounds" to assess cart fleet performance
- Monitor fleet status and connectivity, showing carts that have not connected in the last 24 hours
- View cart utilization and identify those that have not been accessed recently

Remote User Management

- Remotely manage and update user IDs, PIN codes, and user permissions
- Monitor cart access and security PIN codes being utilized

IN-Sight[™]

Integration With Hospital Systems

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTP input.

Service requests can be emailed to a specified address, integrating into Help Desk, Housekeeping, or other hospital systems

Email Alerts Battery Issues Connectivity Issues Security Issues **Utilization Issues**

Email alerts can be configured to notify the service team when carts have connectivity, battery or utilization issues so they can be quickly resolved

Pin Code Interface

CareLink PIN Code Interface

An easy-to-use interface that provides better security and more value from fleet management. Users no longer have to enter and remember PIN codes, which promotes faster workflow and leads to improved asset utilization and access monitoring analysis.

- Login and unlock bins or drawers using "Tap and Go" badge readers or proximity sensors, single sign-on or EMR, including scanning patient's wristband to unlock bin
- Send pin code commands via a special USB cable to login or unlock bins or drawers. Includes optional lock and logout commands, in addition to auto-lock and auto-logout

Active Directory

Active Directory Service for N-Sight

Administer Cart Users directly from Microsoft Active Directory (AD). The simple utility maps attributes from AD to N-Sight providing easier user management, centralized management of security and improved asset utilization analysis.

- Integrates with existing AD processes used when users join and leave the organization
- Utility on AD server manages a service to push updates to N-Sight at defined intervals, such as hourly or daily

SlimCart™

Laptop Cart

The non-powered, ultra-lightweight SlimCart[™] glides easily through tight care settings, providing a flexible, cost-effective solution for mobile documentation. The compact profile and 4" casters allow for simple mobility through doorways, in patient rooms or in hallways. The SlimCart[™] provides a generous work surface with a slide-out mouse surface on the left or right side, and is configurable with your choice of laptop, tablet, or lightweight computer monitor.

- Configurable with your choice of laptop, tablet, or lightweight monitor
- Ultra lightweight, starting at just 27 pounds
- 15.35" w x 16.73"d compact profile for maneuvering in tight spaces
- Flexibility to configure with one or two storage drawers

AX Series Arm

Monitor Arms

The AX Series Monitor Arm lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

- Designed to provide effortless use through a flexible range of motion that supports patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable relationship space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of your healthcare environment and maintains its attractive appearance over time
- Trim-line profile under 8" when stowed for care settings that demand compact and functional hardware mounting

Efficient physical space requirements keep EHR close at hand without inhibiting clinical workflow or cluttering patient care area.

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

AX Series Arm With Monitor Extender

AX Series Arm With Keyboard Extender

Cart Monitor Arms

- Available in rear mount to fit a variety of carts
- Provides a flexible mobility system with ergonomic adjustability
- Selection of laptop trays available including secure and lockable options

Image: Tandem Arm[™] & Slim Line Wall Mounted Workstations

The Tandem Arm and Slim Line redefine wallmounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5"w x 11"d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

Keyboard Drawer Extension

Lighted Worksurface Task light with auto shut-off illuminates the work surface for nighttime use

Keyboard drawer extension with integrated wrist rest reduces strain

Monitor Adjustment

Monitor Bracket allows for 5" of vertical monitor height adjustment

Specialty Carts

CareLink[™] Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight[™]fleet management for remote asset management
- N-Stride[™]steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

M38e Phlebotomy Cart

Flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
- Ergonomic adjustments, easy maneuverability
- Increased runtime for improved uptime performance

M38e Registration Cart

Flexible, mobile Registration workstation that enables you to move easily from one patient room to another. The M38e features a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

Telehealth Carts

M38e Telepresence Cart

The M38e Telepresence Cart is equipped to enable video communication to enhance your telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

CareLink[™] Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

CareLink™ Telemedicine Cart

The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

CDD
