

The Ultimate in Comfort, Convenience and Flexibility

AccessPoint™
Mobile Computing

With over 100,000 workstations in facilities all over the world, TouchPoint Medical is established as a leading provider of mobile computing systems. We are proud to introduce our 7th generation workstation, the TouchPoint Medical AccessPoint™ Mobile Computing System. Building upon the collective expertise from Flo Healthcare, Lionville and TouchPoint Medical, AccessPoint has been designed from the ground up to provide the *Ultimate in Comfort, Convenience and Flexibility.*

TRUE ERGONOMIC DESIGN FOR THE ULTIMATE USER EXPERIENCE

- 1 Supports a wide variety of display options, including touch screens, all-in-one computers and dual monitors.
- 2 Large, open work surface features Microban® antimicrobial protection.
- 3 Innovative keyboard tray provides the widest range of ergonomic adjustment: 10° of positive tilt, 20° of negative tilt, 180° of rotation and 7" of independent height adjustment.

- 4 Robust column design provides a stable platform to support your workflow and accommodate a variety of accessories.
- 5 Compact footprint and easy-roll casters provide maximum maneuverability in tight spaces and over thresholds.

Designed from the ground up to meet the Cornell University Healthcare Cart Ergonomic Standards.

(A stringent, 35-point checklist that measures the ease of use, safety, and effectiveness of the cart.)

Microban® antimicrobial protection helps prevent the growth of stain and odor causing bacteria on the workstation. Microban® protection is not designed to protect users against disease causing microorganisms.

UNIQUE FEATURES

Fully-Adjustable Display Mount

TouchPoint Medical-exclusive display mount allows users to raise, lower, tilt, swivel or rotate the monitor to find the ideal viewing angle, including a bifocal-friendly angle if needed. Monitor can also be lowered to provide enhanced visibility while traveling room to room.

Electronic Lift

Optional electronic lift mechanism provides strain-free adjustment for a keyboard height range of 25" - 48".

Standard Keypad Controller

Easily power the computer on without IT involvement while providing access to battery level and task lighting.

Integrated Footrest

Designed for maximum comfort and durability, the integrated footrest reduces fatigue and allows nurses to relax in a more ergonomic position throughout the day.

Ergonomic Push Handles

Contoured handles provide easy maneuverability.

LED Task Lighting

Work surface and keyboard lights provide ample visibility when working in a patient room during night hours.

TOUCHPOINT MEDICAL MOBILE
MEDICATION SOLUTIONS:

DRIVING ACCOUNTABILITY TO THE BEDSIDE.

Whether medications are stored in an automated dispensing cabinet or come directly from central pharmacy, TouchPoint Medical realizes that healthcare facilities face many challenges when implementing a closed loop medication delivery process. The TouchPoint Medical AccessPoint series of mobile medication solutions are specifically designed to improve workflow by providing nurses with the information and medications they need, where they need them most: the patient bedside.

AccessRx- Easy-to-use software, capacity for up to 12 individual patient drawers and advanced ergonomics provide right solution for any facility looking to improve medication delivery.

AccessRx MD- A mobile medication system that fully integrates with EMR/HER, CPOE, BCMA and eMAR systems to provide a true, patient-centric solution...bringing greater accountability and efficiency to your medication administration process.

AccessRx MD

Mobile Medication

Unparalleled Control

- > Innovative **ADC-agnostic** product design is compatible with a variety of clinical workflows and upstream medication dispensing models
- > Configurable, time-based access controls reduce the risk of medication administration at an incorrect time and aid in pharmacy reconciliation for unused medications
- > Transactional client auditing for patient, user and device events
- > Centralized, web-based console provides access to reports while allowing for Active Directory-compatible user management, fleet management and system setup

Enhanced Security

- > Individually locking, patient-specific drawers can be opened by scanning the patient ID barcode
- > Patient drawers can be assigned using the HL7 ADT (Admission/Discharge/Transfer) transactional data from the HIS, eliminating time consuming and error-prone manual drawer labeling
- > Barcode patient identification and direct eMAR access improves BCMA adherence, reduces redundant tasks and increases accuracy
- > Eliminates common workarounds such as the placement of multiple patients' medications in the same drawer or in clinicians' pockets
- > Optional barcode label printer provides identification to patient specific items

Streamlined Workflow

- > Real-time bedside medication administration, barcode patient identification and direct eMAR API access streamlines BCMA process, reduces redundancy and increases accuracy
- > Secures medications for up to 12 patients in individually-locking drawers, reducing trips and time spent at the ADC
- > Utilizes the hospital's Active Directory to allow each caregiver to use the same alpha-numeric user access information used to sign on to other hospital systems
- > Multi-functional design increases caregiver efficiency allowing for more time spent with patients

TOUCHPOINT MEDICAL MONITOR™ DASHBOARD SYSTEM

Knowledge at your fingertips... TouchPoint MedicalMonitor™ Dashboard System

With TouchPoint Medical's intelligent management and monitoring dashboard system for mobile computing workstations, IT professionals with enterprise software now have web-based access to workstation performance data, including power system and network connectivity, to streamline fleet management and increase workstation uptime.

- > Scalable system designed to support 1 workstation or 1,000+ with easy-to-use group controls
- > Automatic workstation visibility and set-up
- > New robust reporting features, including power usage rates, real-time updates on user & alert management and other advanced features

CLEANER BY DESIGN

- > TouchPoint Medical-exclusive Microban® antimicrobial protection is infused into the AccessPoint, as opposed to our competitors' antimicrobial protection solutions, which are painted on the surfaces of their products and may chip off
- > Fanless charging mode reduces the circulation of dust, debris and other harmful contaminants
- > Advanced polymer and other proprietary finishes provide corrosion resistance
- > Smooth, rounded corners allow for easier cleaning

*Microban protection is not designed to protect users against disease causing microorganisms.

PROTECT YOUR INVESTMENT WITH OUR WARRANTY & SERVICE PLANS

5 YEAR WARRANTY

TouchPoint Medical believes your workstations are a long-term investment which needs to be protected. We stand behind our customers with a comprehensive, 5-year mechanical and a 2-year electrical warranty standard.

TOUCHPOINT MEDICAL ESPSM

ENHANCED SERVICE PROGRAM

TouchPoint Medical understands how important uptime is to keeping clinicians efficient. So that's why we've designed service programs tailored to help you do just that. Only TouchPoint Medical knows our products like we do, down to every nut and bolt. Only TouchPoint Medical provides you with the factory authorized parts designed to work specifically with your equipment.

TouchPoint Medical Advance

Integration & Deployment

Time is money... TouchPoint Medical has created a seamless process designed to get you up and running as quickly as possible. Certified technicians and professional support ensure proper installation of all your critical components and training of your staff.

TouchPoint Medical Maintain

Preventive Maintenance

Free up your valuable resources and get proactive... Preventive maintenance is a critical step to enhanced efficiency, and TouchPoint Medical helps you think ahead. Timed inspections by our trained and certified technicians will help lower your total cost of ownership and maximize the life of your investment.

TouchPoint Medical Assurance

Extended Warranty

Protect your investment and keep clinicians efficient... Safeguard your equipment against unplanned downtime. Extended warranty options and rapid response from TouchPoint Medical help increase system reliability and keep operating costs under control.

ALSO AVAILABLE FROM TOUCHPOINT MEDICAL...

SAFE, RELIABLE TECHNOLOGY WITHIN REACH

AccessMount Wall Systems keep technology always within reach at the point-of-care with the efficiency, versatility and reliability necessary to support clinician workflow. Our systems offer durability that can support up to 40 lbs. (18 kg) and still be adjusted with one hand.
