Optimize Your PPE Inventory - Controlled and Faster Restocking.

Improve Your PPE Management and Reduce Manual Time-Consuming Workflows.

Rotopoint

- ▶ Reduce Stock-outs with automatic reordering.
- ▶ Increase Visibility control stock and ration supplies at central and satellite locations.
- ▶ Automate Access by user group or location parameters – see who is using what, when, and how many.

Locker Storage

- ▶ Reduce Walk and Wait times with lockers to keep bulk supply close and visible for faster restocking.
- ▶ Reduce Touch Points with multiple access modes - RFID, Badge Swipe, Fingerprint, etc.

Our solutions can also be operated with minimum touch points, helping to keep your staff safe. Easy-to-use software allows you to manage the machine from anywhere, at anytime providing 24/7 availability and automatic reordering.
