

ELECTROSTATIC SPRAYERS

This 5-in-1 electrostatic sprayer is a workhorse that will help you disinfect your facilities quickly and effectively!

When using the blower turned off, the mist has a low flow rate of 4-liters per hour. When the fan is on, it propels the disinfectant up to 18 feet.

The wand offers three different nozzle options. The cone has a low flow rate of 6-liters per hour. The blue nozzle and double nozzle provide higher flow rates for faster work in non-sensitive areas.

The battery is a 12V, 10Ah Lithium battery. Without liquids, the backpack is 9 pounds. It holds a max of 16-liters, but we typically only fill it with 6~8 liters at a time.

Model #: 16L-VEB-5in1

5-in-1 Sprayer

ELECTROSTATIC SPRAYERS

SPECIFICATIONS	
Model	16L-VEB-5in1
Capacity	16-liters (4.22 gallons)
Size	15" x 7.5" x 21.25"
Weight	9 lbs (dry)
Battery Capacity	12V, 10Ah Lithium
Charger Input	AC 110
Continuous Working Time	6-hours
Electrostatic Voltage	1.5 - 3 kV
Pressure	0.15 - 0.4 mpa
Droplet Diameter	≤ 120 microns
Flow Rate	4.0 liters / hr (blower w/o fan)
Flow Rate	4.0 liters / hr (blower w/ fan)
Flow Rate	6.0 liters / hr (cone nozzle)
Flow Rate	40 liters / hr (double nozzles)
Flow Rate	40 liters / hr (blue nozzle)
Warranty	1-year
MSRP	\$1,898
